## ICE CLASS RULES 1985

The Finnish National Board of Navigation has amended Section 6 of the Ice Class Rules, issued on 2 September 1985, as regards the period of validity of the Ice Class Certificate.

The decision, which is published below, will come into force on 1 December 1992.

The Ice Class Rules, 1985, have been published in the Board's Circular No. 11/2.9.1985 and Annex III to the Rules in Circular No. 2/27.1.1986. An amendment to the Ice Class Rules, dated 25.1.1988, has been published in Circular No. 4/25.1.1988.

A publication including the Ice Class Rules and their Annexes is obtainable in Finnish, Swedish and English at FIM 30 from

**NATIONAL BOARD OF NAVIGATION  
DECISION  
AMENDMENT OF SECTION 6 OF THE ICE CLASS RULES**

Helsinki, 17 September 1992

---

The National Board of Navigation (Finland) has amended Section 6 of the Ice Class Rules, issued on 2 September 1985, to read as follows:

6 §  
Ice Class Certificate

For the determination of the fairway dues, an ice class certificate is issued for the ship in a form established by the Board of Navigation (Annex II). The ice class certificate is issued at the request of the shipowner or his representative by a hull surveyor appointed by the Board of Navigation.

The ice class certificate is valid for such a time as the data, which form the basis for the determination of the ice class, are unaltered. If these data, e.g. the class notation assigned by the classification society, the engine output or the draught are altered, the shipowner or his representative shall request a hull surveyor to issue a new ice class certificate when the ship calls at a Finnish port for the first time after the alteration.

If, according to 9 § of these regulations, two ice class certificates are issued to the ship, these are valid until 18.7.1994 only.

---

This decision shall come into force on 1 November 1992.

Director General

Kyösti Vesterinen

Head of Maritime Department

Heikki Valkonen
